LETTER FROM GOLD BEN.

Dear Ben—As I promised to drop a line occasionally to you, I proceed now to the fulfillment of that promise. I will tell you of my life here, and how I am getting on.

Our Mines.

Having, on my part, a great deal of spare time, I have been working since early morning till late at night. I have been very busy, and have been able to do a great deal of work. I have been able to do a great deal of work, and have been able to do a great deal of work.

Departures.

Gold Ben has been, and is still sending her gold to the mines. She has been very busy, and has been able to do a great deal of work. She has been able to do a great deal of work, and has been able to do a great deal of work.

Trade.

On the whole, business in the mine is in a good way. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well.

Politics.

I must first tell you that this place has been very busy. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well.

Gold Ben.

Gold Ben, July 21, 1868. We do not know who is the author of "Cham, pame" (Cham, pame). We do not know who is the author of "Cham, pame" (Cham, pame). We do not know who is the author of "Cham, pame" (Cham, pame). We do not know who is the author of "Cham, pame" (Cham, pame).

Local News.

Local News—The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well. The gold is all well, and is all well.

Quartz Discovery.

Quartz Discovery—We have found a great deal of quartz. We have found a great deal of quartz. We have found a great deal of quartz. We have found a great deal of quartz. We have found a great deal of quartz.

The Primary Election.

The Primary Election—Today the members of the Union Party of this county, will elect delegates to the Union County Convention. Let the Democracy know that you are about.

Clean the Streets.

Clean the Streets—Our attention has been frequently called to the filthy condition of Main street, and we have been urged to "pave" it. We have been urged to "pave" it. We have been urged to "pave" it. We have been urged to "pave" it.

Timbered Down.

Timbered Down—Last Thursday evening about half-past nine, a fire broke out in the building of the old Del Rio Saloon. The fire broke out in the building of the old Del Rio Saloon. The fire broke out in the building of the old Del Rio Saloon.

Funerals.

WHAT THEY MEAN.

Vance and Wise knew what they were talking about when they asserted that Blair was pledged to revolution, and that they would gain by the election of Seymour and Blair, what they had fought for in vain. The issues of the present campaign, as Blair's Democratic letter plainly shows, is revolution in the Democracy, and peace and prosperity for the Union party is a vision. This Democratic letter is a more destructive fratricidal strife than the one through which they have passed. Blair, in his famous letter, says: "The reconstruction policy of the Democrats will be complete before next election. We can not undo it by Congressional action, for we can not change the character of the Senate. Must we wait till it is? How can it be overruled? There is but one way, and that is for the President to veto the acts of Congress, and to call out the army to enforce the law. This is the only way to save the Union. This is the only way to save the Union. This is the only way to save the Union."

We see it stated in some of our exchanges that Newburgh, N. Y., is a solid vote for Congress from this district. Booth is one of the most influential, as well as one of the most upright men in that county. A man of undoubted loyalty, of noble instincts, free from all the low intrigues of political wire-pulling, heated and dogmatic, he would if promoted to the position of Congressman be an honor to the State. The Democratic Party, however, is not so solid. The Democratic Party, however, is not so solid. The Democratic Party, however, is not so solid.

Voters of the Primary to-day should see that the delegates to the County Convention are favorable to good men for the position. Sargent has served the State in Congress before and is the most able man ever sent from this State. The Democratic Party, however, is not so solid. The Democratic Party, however, is not so solid. The Democratic Party, however, is not so solid.

EAGLE PIANO-FORTE CO.

950 BROADWAY, NEW YORK.

The above company is composed of a number of practical and experienced Piano-Forte builders sustained by abundant Capital, and whose especial object is to manufacture Piano-Fortes embracing

Every modern improvement of REAL MERIT.

While other manufacturers embody their own special improvements in their instruments, they are deterred from using, the perhaps equally valuable improvements of others in regard to other portions of the instrument, by the often exorbitant royalties or fees demanded by the Patentes for the privilege, so that although we have frequently announced of Pianos embracing every modern improvement, there are really none at present that do so. It is the determination of the EAGLE PIANO-FORTE CO. to disregard all considerations of expense in procuring the rights to use any and every improvement which has met the approval, and may be recommended to them by the leading Pianists of the day, such as the Abbe Litz, Thalberg, Gottschalk and others.

This Company has boldly embarked with the above purpose, confident that the American people are prepared to approve, appreciate, and sustain their effort to produce,

The most complete and best Piano-FORTE IN THE WORLD.

While the expense of manufacturing will necessarily be increased by the purchase of these rights and privileges, it will not be permitted to increase the retail price of any of their instruments. The same style and finish of instruments will be sold as cheaply as those of any other good manufacturer.

The Company being new is disposed to extend its efforts for establishing a reputation and the reputation of its work than for present profits, confident that this course will be more profitable in the end.

Every department of the manufacturing being under the hands of a practical workman who is at the same time a member of the Company and interested in its success and reputation, insures an exactness with regard to the character of the work that cannot otherwise be obtained.

The best recommendation for these Pianos lies in the fact that they are rapidly finding their way into the parlors of all the leading professional and amateur Pianists of the day in preference to all others.

Confident that their instruments will be their own best recommendation, the Eagle Piano-Forte Co. are anxious to effect the early introduction of one of our instruments into every community, and to this end they offer

Extraordinary Inducements to MUSIC TEACHERS AND OTHERS.

Who may be able to aid them in their effort.

School Committees and others desiring instruments for Public Institutions will be offered special inducements.

Ladies and others having charge of Charitable Fairs, Festivals, &c., will be offered special inducements together with suggestions by which the proceeds of their benevolent efforts may be greatly increased; all such are especially invited to correspond with us.

Orders promptly and carefully filled from the large assortment always on hand.

A CHANGE NECESSARY.

From some cause or other the press of this Coast has but little to say in regard to the moral status of society. Whether this neglect arises from a false delicacy we cannot say, but must presume that it does. It is an established fact, that the moral standard of society is regulated by the social rank, and a moment's thought is sufficient to show that the greatest incentive to human industry is a good, healthy state of society. Statistics prove that a predominance of either sex, produces violations of moral and social harmony, and generates a debasing influence that leads the dominating sex into immoral habits, destroys their sense of propriety, and wears away the finer feelings, and substitutes idle, loose, and dissipated habits, for thrift, enterprise, and moral and social culture. In Sweden, the women exist in numerical pre-eminence to a greater extent than in any other known country, and in no place is the burthen of field labor divided more equally. No time is found by the women for literary or social culture, for their whole time is absorbed in pursuits that creates a distaste for such things, and destroys all womanly feelings, and incapacitates the mother for that sacred duty of bestowing upon her offspring the benefits of refined culture. In England, also, the women devote their lives to labor in the factories, in the coal mines, and in the fields, and grow up coarse and ungainly, and assume the form of men in woman's attire. In New England the supremacy of women threatens similar results; and though now there are many who are finely educated, the fact of their numbers renders their education of little avail. On this coast we have a reverse of affairs. The men are in the supremacy, and the most possible effects are the result; for the want of select social intercourse, men have become degraded, mentally and morally. Having no ostensible goal to gain, except to secure food and raiment, they acquire loose, and idle habits, and forget together the debt they owe to their Creator, and to their fellow-men. The fields are left untilled, and the mines unworked, whilst the lazy "lads" lounge about saloons, playing back poker, or sit watching the bar, with longing eyes, in hope that some one will come in and ask them to drink. And neither do we, in all instances, find our female society on this Coast, just what it should be. Our whole social system wants remodeling. We want some of the intelligent women from the crowded North. Let those who by virtue of superior education are fitted to be leaders of society prescribe a standard; teach those who have not had the advantages the precepts of good society, and they will emulate the examples placed before them, and industry will succeed idleness, and intelligence supplant ignorance.

CALIFORNIA WHEAT AND FLOUR—GRAIN, ETC.—It may not be known generally that there is a handsome gain to shippers of our wheat, in the matter of gain in weight by reason of its absorbing moisture in passing from the Pacific to the Atlantic. In some cases the gain is a large percentage. California wheat is gathered in such a perfect manner—so dry and pure, that in passing to a humid atmosphere it will absorb largely, yet, we do not believe that the actual gain has always been known so as to be realized. In the matter of flour, we are informed by the best authorities—bakers that purchase and use our California extra flour—that it will absorb twenty, thirty, even forty pounds of water more than a barrel of Atlantic flour; thus, they actually gain from ten to twenty per cent, more weight, besides having a superior flour. These facts are worthy of a note.—(California Farmer)

FIRE at CORBURN'S.—A dispatch to the Bee, dated at Colburn's Station, July 30th, says: A fire broke out in this place this morning, about six o'clock, in the business street opposite Campbell's tavern, which destroyed about fifty buildings, including twenty stores. The fire destroyed all the buildings on the south side of the track except the "schoolhouse," and burned all nearly to the depot on the south side. Loss not ascertained, but it is heavy, with no insurance to speak of.

ASIATIC CHOLERA.

The strongest proof of intrinsic

MERIT.

DEAR SIR:—I ought to have acknowledged long ago the box of Pain Killer you had the goodness to send me last year. Its coming was most providential. I believe hundreds of lives were saved, under God, by it. The cholera appeared here soon after we received it. We resorted at once to the Pain Killer, using as directed for cholera. A list was kept of all to whom the Pain Killer was given, and our native attendants assured us that it cured every case to whom it was prescribed, recovered. It has, too, been very useful in various other diseases. It has proved an incalculable blessing to multitudes of poor people throughout all this region. Our native preachers are never willing to go out on their excursions without a supply of Pain Killer. It gives them favor in the eyes of the people, and access to families and localities by whom otherwise they would be very differently received.

Believe me, dear sir, gratefully and faithfully yours,
J. M. JOHNSON,
Missionary at Szeatun, China. g1m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YORNE, in 1859. It is the cure of deafness and dumbness, and is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divert themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 340, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOBERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with the Doctor, and by direct communication have ascertained that he has had years of chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doberty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Doctor is a gentleman of high moral character, and his reputation for skill and success in the treatment of all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. He is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appertains to that confidence. Fully advised with either acute or chronic disease, would do well to consult the Doctor; at all events, he can do no harm, as for consultation he asks no fee, and he will not demand of him to his advice unless the patient places himself under his care. His office is on Sacramento street, opposite the Pacific Mail Steamship office.—News

DUTCH FLAT ENQUIRER.

BROKEN TOYS.

I have bowed beneath the stroke, and the storm in passing o'er;
I will walk, and will not murmur, though my lips may smile no more;
The world is quite forsaken.
My beautiful is taken
To the dim, eternal shore:
I have learned to watch the little sport of earth that is my boy's.
But scarcely yet I dare to touch his tiny "broken toys."

Mid the shadow of the evening, in the blackness of the night,
That struggle, and that piteous look, come back upon my sight,
And I recall the smiling lips, the peaceful, smiling face,
Sunlight, as if from pain it ne'er had known a trace.

I have gathered up his few small books, they stand beside my bed;
I have folded up, for treasures, the clothes from which he fled—
The cambric skirt, with crimson stain, from the vein where he was bled;
I can hear the "singing" tokens, but not those of his joys.

A parent's heart is crushed again, at the sight of these "broken toys."
How weak I am, how grief, how desolate, how lone;
Bear with my faithless grief, oh, Thou! to whom all griefs are known:
I will think upon Thy story,
Who from my arms is flown,
And try to picture to myself the bliss that is my boy's,
But my heart forgets its beating when I touch these "broken toys."

Things Unknown.—Show us the man whose waist has ever been encased by an arm of the sea.
Who has ever seen the cow that had calves on her legs?
Where is the identical nose of the bellows that ever smelt a rat?
Where is the person who was ever felt for by the heart of an oak?
What vessel can lay claim to having ever been listened to by the ear of corn?
Who has ever been pushed by a shoulder of mutton?
The individual who was ever seen by the eyes of a potato has never been visible.
Was there ever an individual mucky enough to be abused by the mouth of any river?
Who ever felt the breath from the lungs of a chest of drawers?

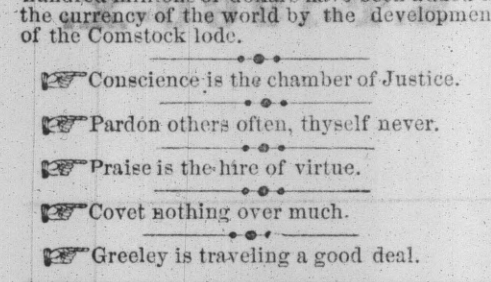

The Virginia *Trepass* says that about one hundred millions of dollars have been added to the currency of the world by the development of the Constock lode.

Conscience is the chamber of Justice.
Pardon others often, thyself never.
Praise is the hire of virtue.
Covet nothing over much.
Greedily is traveling a good deal.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS.

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great center which influences the health of the whole system. Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences resulting from its derangement. It is the source of heartburns, flatulencies, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, etc. The Bowels sympathize by Constipation, Diarrhea and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum.

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is, especially antagonistic, its "moderate operation" is best to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have pertinaciously refused to yield to any other remedy or treatment, have invariably been cured by a few applications of this powerful ointment.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent skin is restored by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet applications in its power to cleanse the skin and remove all disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this ointment; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Rheumatism, Sore Legs, Sore Throats, Sore Breasts, Sore Eyes, Sore Ears, Sore Mouth, Sore Gums, Sore Lips, Sore Nose, Sore Throat, Sore Tongue, Sore Vagina, Sore Uterus, Sore Bladder, Sore Kidneys, Sore Liver, Sore Stomach, Sore Intestines, Sore Rectum, Sore Anus, Sore Prostate, Sore Testes, Sore Epididymis, Sore Spermatic Cord, Sore Scrotum, Sore Penis, Sore Clitoris, Sore Vulva, Sore Vagina, Sore Uterus, Sore Bladder, Sore Kidneys, Sore Liver, Sore Stomach, Sore Intestines, Sore Rectum, Sore Anus, Sore Prostate, Sore Testes, Sore Epididymis, Sore Spermatic Cord, Sore Scrotum, Sore Penis, Sore Clitoris, Sore Vulva.

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a Water Mark in every leaf of the book of directions around each pot or box: the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufacture of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

There is considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each pot and box.

Dealers in my well-known medicines can have Show Cards, Circulars, &c., sent FREE OF EXPENSE, by addressing Thomas Holloway, 80 Maiden Lane, New York.

ACTS GENTLY

Is pleasant in taste and odor, free from all injurious properties, and immediate in its action.

FOR THE SATISFACTION OF ALL

"BUCHU. Its odor is strong, diffusible, and somewhat aromatic, its taste bitterish, and analogous to that of mint. It is given chiefly in complaints of the Urinary Organs, such as Gravel, Chronic Catarrh of the Bladder, morbid irritation of the Bladder and Urinary passages, the Prostate, and Retention or Incontinence of Urine, from a loss of tone in the parts concerned. It is also given in Catarrh of the Uterus, in Dyspepsia, Chronic Rheumatism, Cutaneous Affections, and Dropsy."

MR. H. T. HELMBOLD:

DEAR SIR:—In regard to the question asked me by you, I have used and sold the article in various forms for the past thirty years. I do not think there is any other preparation of Buchu that has not used or known to be used, in the various diseases where such indicate agent would be indicated.

You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in judgment, is warranted by the facts.

I have seen and used, as stated before, every form of BUCHU—the powdered leaves, the simple decoction, tincture, fluid extracts; and I am not cognizant of any preparation of that kind at all equal to mine. Eighteen years' experience, I think, give me the right to judge of its merits, and with no prejudice or partiality, I give your precedence over all others.

I value your Buchu for its effects on patients. I have cured with it, and seen cured, with it, more diseases of the bladder and kidneys than I have ever seen cured with any other proprietary compound of whatever name, or any other Buchu.

Respectfully yours, &c.,

W. S. COOK, 140 Wood street, Pittsburg, Pa.
